The Board believes that a fair teacher compensation plan, which includes an adequate base salary, increments and employee benefits, is necessary to attract and hold highly qualified men and women to provide a quality educational program.

As required by law, notice of annual salary is given to each certificated/licensed employee by July 1.

**Teacher Contracts**

Written contracts of employment are issued to all certified/licensed teaching personnel. Contracts are by and between the staff member and the Board.

The basic types of contracts are as follows:

1. **Limited Contract**

   A limited contract is one to five years in length. It may be entered into by a teacher who has not been an employee of the Board for at least three years and must be entered into, regardless of length of previous employment, by a teacher who holds a provisional or alternative license or who holds a professional license and is not eligible to be considered for a continuing contract.

   Any teacher employed under a limited contract and not eligible to be considered for a continuing contract is, at the expiration of the contract, considered reemployed at the same salary plus any increment provided by the salary schedule, unless acted upon by the Board.

   The Board may, acting on the Superintendent’s written recommendation that the teacher not be reemployed, not renew a limited contract so long as evaluation procedures have been completed in compliance with law. The Board must give the teacher written notice of its intent not to reemploy on or before April 30.

2. **Extended Limited Contract**

   An extended limited contract of one or two years in length is given to a teacher who is eligible for consideration for, but not awarded, a continuing contract.
3. **Continuing Contract**

Teachers who have taught in the District for at least three years within the last five years and teachers who have attained continuing contract status elsewhere and have served two years in the District are eligible for continuing contracts.

A continuing contract may be issued to eligible teachers who:

A. hold a professional, permanent or life teaching certificate or

B. Any teacher who was initially issued a teacher’s certificate or educator’s license prior to January 1, 2011 who meets the following conditions:

1) Holds a professional educator license or a senior professional educator license or lead professional educator license;

2) Has completed the applicable one of the following:

   a. If the teacher did not hold a master’s degree at the time of initially receiving the license, 30 semester hours of coursework are required in the area of licensure or in an area related to teaching since the initial issuance of the license.

   b. If the teacher held a master’s degree at the time of initially receiving his/her license, six semester hours of graduate coursework are required in the area of licensure or in an area related to teaching since the initial issuance of the license.

C. Any teacher who never held a teacher’s certificate and was initially issued an educator license on or after January 1, 2011 who meets the following conditions:

1) Holds a professional educator licenses or a senior professional educator licenses or lead professional educator license;

2) Has held an educator license for at least seven years;

3) Has completed the applicable one of the following:

   a. If the teacher did not hold a master’s degree at the time of initially receiving an educator license, 30 semester hours of coursework in the area of licensure or an area related to the teaching field since the issuance of the licenses.
b. If the teacher held a master’s degree at the time of initially receiving his/her licenses, six semester hours of graduate coursework are required in the area of licensure or in an area related to teaching since the initial issuance of the license.

Upon the recommendation of the Superintendent that a teacher eligible for continuing contract service status be reemployed, a continuing contract is granted unless the Board rejects the recommendation by three-fourths vote. A continuing contract remains in effect until the teacher resigns, elects to retire, is retired for reasons consistent with law or until he/she is terminated or suspended.

If the Board rejects the recommendation for reemployment of the teacher, the Superintendent may recommend reemployment of the teacher under an extended limited contract for a term not to exceed two years, if continuing service status has not previously been attained elsewhere. Written notice of the Superintendent’s intention to make such a recommendation must be given to the teacher with reasons directed at the professional improvement of the teacher on or before April 30. Upon subsequent reemployment of the teacher, only a continuing contract may be entered into.

The Board may reject the Superintendent’s recommendation for reemployment of the teacher under an extended limited contract by three-fourths vote of its full membership.

The Board declares its intention not to reemploy the teacher by giving the teacher written notice on or before April 30. If evaluation procedures have not been completed in compliance with law or if the Board fails to give the teacher written notice of its intent not to reemploy by the aforementioned date, the teacher is reemployed under an extended limited contract for a term not to exceed one year at the same salary plus any increment provided by the salary schedule.

The Superintendent’s recommendation is considered in all contracts pertaining to certificated/licensed individuals.

NOTE: Specific provisions for teacher contracts are established through negotiated agreements for those districts with collective bargaining units. Supplemental contracts for teachers are addressed in policy GCBB.

Policy GCB-1 applies to teachers. Policy GBC-2 applies to administrators. This numbering system is followed in other policies such as AFC-1 regarding teachers and AFC-2 regarding the same topic for administrators.
PROFESSIONAL STAFF SUPPLEMENTAL CONTRACTS

Certain positions assigned to professional staff members may require extra responsibility or extra time beyond that required of all professional staff members. When the Board and administration determine the need, qualified staff selected for such positions are provided supplemental contracts and additional compensation.

The Board approves the positions and the compensation for these assignments. Supplemental contracts for such assignments are awarded by the Board upon the recommendation of the Superintendent.

Supplemental contracts are limited contracts given for terms not to exceed five years. Supplemental contracts expire automatically at the end of their terms, with or without Board action.

The Board directs the Superintendent/designee to identify those supplemental contract positions that supervise, direct or coach student activity programs, which involve athletic, routine/regular physical activity or have health and safety considerations. Individuals accepting these contract positions must complete the requirements established by the Ohio Department of Education, and State law.

NOTE: Concussion Management

House Bill 143 (effective April 23, 2012) added requirements to State law for concussion management in athletics. The specific requirements are outlined in Ohio Revised Code 3313.539. The law states that if districts are subject to the rules of an interscholastic athletic conference they will be in compliance if the rules of the organization are substantially similar to that of State law. Districts who are part of the Ohio High School Athletic Association (OHSAA) should already be implementing procedures that are similar to what is now in State law. If your district is not a member of OHSAA, or has sports that are not recognized as OHSAA sports, check with your regulatory organization to ensure compliance with State law.

OHSAA has already made a concerted effort to provide educational resources to member schools on concussion management. This information is outlined in the OHSAA bylaws and sports regulations.

Specifically, OHSAA has adopted the following sports regulation:

"Any athlete who exhibits signs, symptoms or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion or balance problems) shall be immediately removed from the contest and shall not return to play until cleared with written authorization by an appropriate health care professional.

In Ohio, an “appropriate health care professional” shall be a physician, as authorized under ORC Chapter 4731 and includes both doctors of medicine (M.D.), doctors of osteopathy (D.O.) and an athletic trainer, licensed under ORC Chapter 4755.

OHSAA has further defined parameters to guide OHSAA licensed officials, medical personnel and member schools in implementing these guidelines. Information is provided by OHSAA on recognizing signs and symptoms consistent with a concussion. Specific guidelines and expectations for coaches, officials, and students for concussion management are outlined in the OHSAA general sports regulations. Details are additionally outlined in these regulations for when athletes can be returned to play and who is able to decide whether a student is fit to return to practice or competition.
HB 143 amended the requirements for the issuing or renewal of a pupil-activity program permit to coach interscholastic athletics. These permits are issued by the Ohio Department of Education. To receive a first time permit each individual must successfully complete a training program that is specifically focused on brain trauma and brain injury management. To renew a permit, individuals must present evidence that they have successfully completed a training program in recognizing the symptoms of concussions and head injuries within the previous three years.

OHSAA has a Web page dedicated to sports safety, which includes links to concussion resources. Visit http://www.ohsaa.org/medicine/sportssafety.htm for more information.

PROGRAMS FOR STUDENTS WITH DISABILITIES

All students with disabilities living within the District are identified, evaluated and placed in appropriate educational programs. Additionally, all parentally-placed private school children with disabilities who reside in a state other than Ohio and attend a private school within the District are located, identified and evaluated. Due process requirements, procedural safeguards and confidential treatment of information are adhered to as required by State and Federal law.

The Superintendent is expected to supervise all special education programs and to assign a member of the staff to coordinate efforts. The person designated is responsible for the identification of students with disabilities, the evaluation of disabilities and evaluation procedures, the design of Individualized Education Programs (IEP), plans and placement. All procedures are in accordance with State and Federal law.

The IEP determined for each identified student is developed in accordance with the student’s individual needs. The plan provides for re-evaluation of the student’s needs, progress and effectiveness of the program being offered.

Although the District requires all students with disabilities to be tested, each student with a disability is considered individually relative to his/her participation in the District’s educational and testing programs. Alternative assessments may be required. Students must make yearly gains towards closing the achievement gap as defined by the State Board of Education performance targets.

The Board, by resolution, directs the administration to comply with and follow the Ohio Department of Education, Office of Exceptional Children’s model special education policies and procedures.

NOTE: Ohio's operating standards for Ohio Educational Agencies Serving Children with
disabilities ("Operating Standards") require school districts to adopt written policies and
procedures regarding the education of children with disabilities. In July 2009, the Ohio
Department of Education, Office of Exceptional Children made available the department's
model special education policies and procedures. These model special education policies
and procedures do not need to be adopted in its entirety as board policy. Instead, a board
of education should pass a resolution directing district administrators to comply with and
follow ODE's model special education policies and procedures. This policy should be
amended to include a paragraph that provides that the Board, by resolution, directs the
administration to comply with and follow the model special education policies and
procedures
