PROTECTION FOR REPORTING SAFETY AND FRAUD VIOLATIONS  
(Whistleblowers)

The Board is concerned with the safety of everyone present on District property and has directed the Superintendent/designee to develop and maintain a comprehensive safety plan, in accordance with State law, that addresses potential safety issues that may arise within the District.

In addition to the comprehensive safety plan, staff members are encouraged to participate in the safety practices of the District by providing recommendations that ensure a safe environment for all.

The Board also is concerned with the prevention of fraud, including the misuse and misappropriation of public money, and, in accordance with State law, shall provide information to all staff members about the fraud reporting system established through the Auditor of State.

The Board shall put forth its best efforts in prevention and correction of safety and fraud issues; however, there may be times when such violations may occur. Staff members who report these violations in good faith have the right to do so without any retaliation by the Board, District administrators or other staff members.

The Board does not condone, nor does it tolerate, any act of discrimination, harassment or other acts of retaliation at any time for the reporting of safety and fraud violations. Staff members in violation of this policy will be disciplined in accordance with the negotiated agreement, Board policy and/or State law.

Emergency/Safety Plans Handbook
NOTE: Ohio Revised Code Section 4113.52 contains the provisions for:

- the protection of employees that report safety violations (whistleblowers);
- what should happen if the district does not correct the violations;
- notifying the employees who report violations of the status of those violations;
- the prohibitions against retaliation for making reports and
- legal remedies for retaliation.

A summary of these prohibitions is outlined in the regulation that follows.

Ohio Revised Code Section 117.103 requires the Auditor of State to maintain a system for the reporting of fraud, including the misuse of public money by a public office or public official. The system allows anonymous complaints to be made through a toll-free telephone number, the Auditor of State’s website or through the U.S. mail.

It requires the Auditor of State to maintain a log that contains:

- the date the complaint was received
- a general description of the complaint
- the public office or agency against whom the complaint is directed
- a general description of the status of the review by the Auditor's office

It also places a notification requirement on all public employers. Effective May 4, 2012, all public employers must notify existing employees of the fraud-reporting system as well as inform new employees of the system within 30 days of beginning employment. Employees also must confirm that they have received this information.

Ohio Revised Code 124.341 contains prohibitions against retaliation against civil service employees for making a fraud complaint with the Auditor of State. A summary of these prohibitions is outlined in the regulation that follows.

The Board, as steward of this District’s property, recognizes that efficient management and full replacement upon loss requires accurate inventory and properly maintained property records.

The District conducts a complete inventory every five years, by physical count, of all District-owned equipment and supplies with a cost of $5,000 or more. For purposes of this policy, “equipment” means a unit of furniture or furnishings, an instrument, a machine, an apparatus or articles which retain shape and appearance with use, is nonexpendable and does not lose its identity when incorporated into a more complex unit.

This District maintains a fixed asset accounting system. The fixed asset system maintains sufficient information to permit:

1. preparation of year-end financial statements in accordance with generally accepted accounting principles;

2. adequate insurance coverage and

3. control and accountability.

Each building and additions to buildings are identified by location or name and are described in detail (e.g., size, number of floors, square footage, type of construction, etc.) with the value shown for all individual structures.

Fixed equipment is inventoried by building, floor and room name or number; each item is to be listed individually. (Leased equipment that the District will eventually own must be inventoried.)

Movable equipment is inventoried by building, floor and room name or number; each item is to be listed individually. Any item that has a model number or serial number has that number noted in the description for full identification. All items assigned to a building are the building administrator’s responsibility.

All equipment purchased, as capital outlay or replacement with a cost of $5,000 or more and with an estimated useful life of five years or more is tagged and made part of the equipment inventory. For fixed asset reporting purposes, all equipment in excess of $5,000 is used.

The Treasurer is assisted by the principals, directors, supervisors and professional and support staff in the performance of this function.

HAZING AND BULLYING
(Harassment, Intimidation and Dating Violence)

Hazing means doing any act or coercing another, including the victim, to do any act of initiation into any student or other organization that causes or creates a substantial risk of causing mental or physical harm to any person.

Throughout this policy the term bullying is used in place of harassment, intimidation and bullying.

Bullying, harassment and intimidation is an intentional written, verbal, electronic or physical act that a student has exhibited toward another particular student more than once. The intentional act also includes violence within a dating relationship. The behavior causes - mental or physical harm to the other student and is sufficiently severe, persistent or pervasive that it creates an intimidating, threatening or abusive educational environment for the other student. This behavior is prohibited on school property, on a school bus or at a school-sponsored activity. Students found responsible for harassment, intimidation or bullying by an electronic act may be suspended.

Permission, consent or assumption of risk by an individual subjected to hazing, bullying and/or dating violence does not lessen the prohibition contained in this policy.

The District includes, within the health curriculum, age-appropriate instruction in dating violence prevention education in grades 7 to 12. This instruction includes recognizing warning signs of dating violence and the characteristics of healthy relationships.

Prohibited activities of any type, including those activities engaged in via computer and/or electronic communications devices or electronic means, are inconsistent with the educational process and are prohibited at all times. The District educates minors about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response.

No administrator, teacher or other employee of the District shall encourage, permit, condone or tolerate any hazing and/or bullying activities. No students, including leaders of student organizations, are permitted to plan, encourage or engage in any hazing and/or bullying.

Administrators, teachers and all other District employees are particularly alert to possible conditions, circumstances or events that might include hazing, bullying and/or dating violence. If any of the prohibited behaviors are planned or discovered, involved students are informed by the discovering District employee of the prohibition contained in this policy and are required to end all such activities immediately. All hazing, bullying and/or dating violence incidents are reported immediately to the Superintendent/designee and appropriate discipline is administered.
The Superintendent/designee must provide the Board President with a semiannual written summary of all reported incidents and post the summary on the District's website, to the extent permitted by law.

The administration provides training on the District's hazing and bullying policy to District employees and volunteers who have direct contact with students. Additional training is provided to elementary employees in violence and substance abuse prevention and positive youth development.

District employees, students and volunteers have qualified civil immunity for damages arising from reporting an incident of hazing and/or bullying. Administrators, teachers, other employees and students who fail to abide by this policy may be subject to disciplinary action and may be liable for civil and criminal penalties in compliance with State and Federal law.

No one is permitted to retaliate against an employee or student because he/she files a grievance or assists or participates in an investigation, proceeding or hearing regarding the charge of hazing and/or bullying of an individual.

THIS IS A REQUIRED POLICY  

NOTE: A brief policy on Community Use of School Facilities suffices when it is accompanied by fairly extensive regulations approved by the school board. Many policies, however, also contain the basic principles that govern facilities used by outside groups.  

One or more special subcategories may need to be added to take care of statements on special use of facilities or use of special facilities (such as swimming pools, stadiums). Such statements can be coded and added following the standard KG sequence by coding KG-R-2-3, etc.
